

**Risk management
(Mick Elliott and Leo Treble)**

Following on from a concerned member last year, of the safety of players on the 15th tee from golfers approaching the 14th green. It was decided that there was a risk so a safety net has been erected in conjunction with making the tee bigger. This project has almost been completed.

**Water management
(Mick Elliott and Roger Baker)**

This year we have treated our dams with a product called damit to stop them from leaking. This has been quite successful with our dams holding well. We have been told we will receive our full allocation for this season. Because of the club's fraud situation, we have been unable to do much in the way of drought proofing.

**Cart paths
(Mick Elliott and Gerard Fitzpatrick)**

In my opinion this has been money well spent. A one-off cost that we never have to worry about again. We have two fairways and a few extensions to complete the program.
